

Improving DVT Prevention, Detection and Treatment in High-Risk Specialties

A Complimentary 3 Part CME Event

Registration Form

Improving DVT Prevention, Detection and Treatment in High-Risk Specialties is a three part series that will focus on the five groups of patients at particularly high risk of developing venous thromboembolic (VTE) disease: cardiology, gynecology, neurology, oncology, and orthopedic patients. These broadcasts are available at no charge to hospitals, but pre-registration is requested. After completing this registration form, please return to crmhealthcare via fax at 817.415.4823 or e-mail registration information to gwen.anderson@crmhealth.com. If you need more information, please call crmhealthcare's Professional Education Department at our toll-free number, 866.865.5448.
