

**Antimicrobial Resistance -
the tactical and strategic complexity**

**Is Your Hospital
Ready
For Its Next Move?**

Texas Health Resources is Proud to Present Complimentary National Webcasts:

A CALL TO ACTION

**Advancing Appropriate Antimicrobial Use and Infection
Prevention through Partnership and Shared Knowledge**

Texas Health
Research & Education Institute

100 E. Royal Lane, Suite T-200
Irving, TX 75039

A series of 6 performance improvement continuing education programs focused on key determinants of antimicrobial resistance in hospitals.

Preventing the development of and controlling anti-microbial resistance requires opportunistic and defensive strategies and a concerted effort of your physicians, staff and operational leaders. Gather your team for a continuing education series that allows you to learn with leading subject experts, exchange ideas and build the intellectual capital to change the tide of resistance. The next move is yours!

ONLINE CME SERIES BEGINS NOVEMBER 3, 2009
